

Advancing an exciting gold development and exploration property in Brazil.

Why Invest?

We are at the inflection point:

New highly experience management team ready to execute a solid plan

Amarillo's near term focus is to advance their Mara Rosa Project into production

The Mara Rosa Mine:

NPV 5%
\$178M

AISC*
\$630/oz

P/NAV*
.12x

35% IRR
A/TAX

2.2 Years
Payback

EV/OZ*
\$29.32

*calculated at \$1200

Received approval of major permit
1.5M oz of reserves & resources
Only tapped 600M of 14 klm trend
35 klm from Yamana's Chapada mine
Moving to FEAS
Excellent infrastructure
Past producing mine

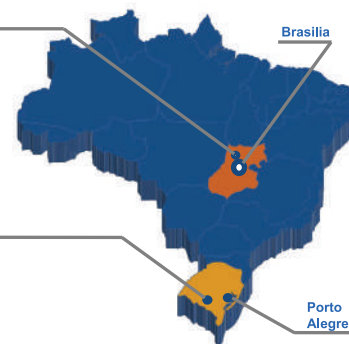

Lavras Do Sul Project:
Major intercepts include:
120M @ 3.23 g/t
232M @ 1.95 g/t

Significant exploration upside
Pursuing 22 targets of 100 klm perimeter
Potential game changer with significant grades
Reigniting marketing as the company
is significantly mispriced

Two Robust Projects

Mara Rosa Development Project, Goias State

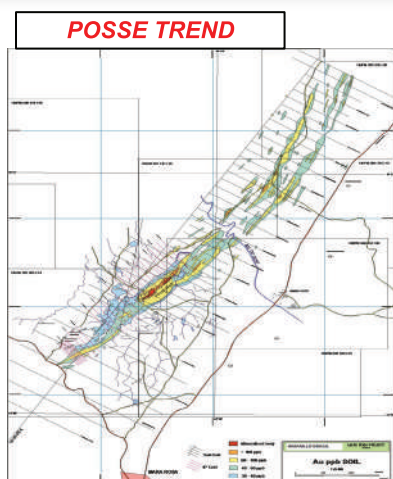

- Federal highway, 320km from the capital
- 35km from Chapada mine (Yamana)
- 62km from Pijar mine (Brio)
- 500km from Paracatu mine (Kinross)

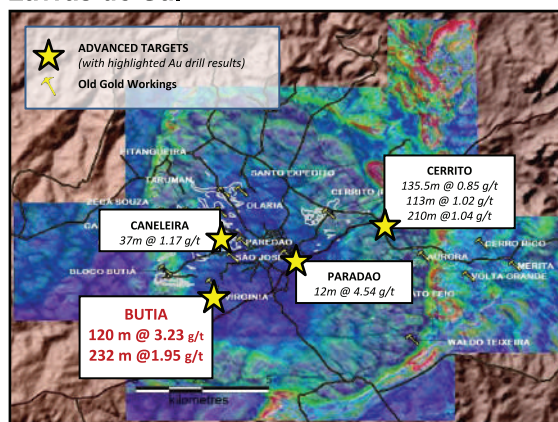

Lavras do Sul Exploration Project, Rio Grande do Sul State

- Paved highway, 320km from Porto Alegre
- Hydroelectric and thermal grid power
- Town was founded on mining

Posse Trend District Potential

Lavras do Sul

Advancing Initiatives:
Environmental baseline studies at Butia.
Soil sampling, geological mapping and airborne studies.
3,000 meter drilling campaign.

Explorers, Leaders, Mine Builders
